

What do we do to prepare? The planned Phase One reopening will begin Friday, May 15.

- 1. Protect Employees & Customers:** These include possible adjustments to workplace hours and shift design as necessary to reduce density in the workplace, as well as enacting social distancing protocols, and restricting non-essential travel for employees.
- 2. Make the Physical Workplace Safer:** Changes should include requiring all employees and customers to wear masks if in frequent close contact with others, and implementing strict cleaning and sanitation standards.
- 3. Implementing Processes that Lower Risk of Infection:** Processes that meet our changing public health obligations may include screening individuals when they enter the workplace and temperature checks. This also includes the development of liability processes including tracing, tracking, and reporting of cases, as well as reporting confirmed positives to customers. These processes will vary from business to business.
